# ABSTRACT

OF  
 His MAJESTY'S ROYAL CHARTER, for Erect-  
 ing and Promoting English Protestant Schools in  
 IRELAND.

**G**EORGE the Second, by the Grace of God of Great-  
 Britain, France, and Ireland, King, Defender of the  
 Faith, &c. — To all Persons to whom these Presents shall  
 come. — Forasmuch as we have received Information by  
 the Petition of the Lord Primate, Lord Chancellor,  
 Archbishops, Noblemen, Bishops, Judges, Gentry, and Clergy of  
 our Kingdom of Ireland; That in many Parts of the said Kingdom  
 there are great Tracts of Land, almost entirely inhabited by Papists,  
 who are kept by their Clergy in great Ignorance of the true Religion,  
 and bred up in great Disaffection to the Government; That the Erect-  
 ing of English Protestant Schools in those Places is absolutely necessary  
 for their Conversion; That the English Parish-Schools already esta-  
 blished are not sufficient for that Purpose, nor can the Residence of  
 the Parochial Clergy, only, fully answer that End; and it is our  
 Intent, therefore, that the Children of the Papists, and other  
 poor Natives of the said Kingdom, may be instructed in the English  
 Tongue, and in the Principles of true Religion and Loyalty; and  
 that so good a Design may the more effectually be carried on; The  
 Lord Lieutenant, and some of the chief Nobility, Gentry, and Cler-

The said Society is impowered and appoint proper School-masters and School-mistresses, to be approved and licensed by the Archbishops and Bishops respectively, to continue during the Pleasure of the said Society; and are to be supported by the Society, and provided with all things necessary for the Instruction of the Poor Children in the Principles of the Protestant Religion, Reading, Writing, and Arithmetick; as likewise with proper Books, and all necessary Materials fit for teaching them Husbandry, Housewifery, Trades, Manufactures, &c. in order to bring them up in Virtue, Labour, and Industry.

The said Society and their Successors, by the Name aforesaid are hereby entitled to sue, and be sued in all Courts, and to have a common Seal.

# INTRODUCTION

**T**HE Incorporated Society in Dublin, for Promoting English Protestant Schools in Ireland, having made some Progress in the Trust reposed in them, by his MAJESTY'S Royal Charter, have judged it convenient to lay before their worthy Benefactors, and all other well-disposed Persons, the particular Ends they have in View; and, also, the several Steps they have taken for obtaining the same.

The particular Ends they have in View, are the following:

1<sup>st</sup>, To promote the Glory of God, and the Salvation of Souls, by rescuing the Children of the poor Natives from that Ignorance, Superstition and Idolatry, to which they were devoted from their Infancy; and to train them up in the Knowledge of the Holy Scriptures, *which alone are able to make them wise to salvation*; and in the pure Protestant Faith, and Worship.

We have found, by long Experience, that the Prejudices of those who have been bred up to Maturity in the *Popish* Religion, are rarely to be removed by the clearest and strongest Reasonings; and as all Methods of Compulsion, in Matters of Faith, are contrary to the Genius of the Christian Religion, and the Principles of the Established Church, as well as to Reason and common Sense; the only way that remains, is to begin with the rising Generation, by training up the Children of the *Papists* in the Purity of the Christian Faith and Morals, before the Corruptions of *Popery* have taken Root in their Hearts.

2<sup>dly</sup>, The Society propose to strengthen His Majesty's Government, and the Protestant Interest of Ireland, by encreasing the Number of Protestants in the only Christian and Reasonable Way. And they are sorry to observe the particular Necessity of this, at the present Juncture, when the Protestants of this Kingdom are deluded to transport themselves to the *American Plantations*; by which means, His Majesty is daily losing some of his faithful Subjects, and the Kingdom exhaust-

exhausted of the most useful Hands in Trade : This is a Publick Loss, which the Society can see no other Way of repairing, than by providing fresh Recruits of *Protestants* out of their Schools \*.

3dly, They propose to cure, by degrees, that Habit of Idleness, which is too prevalent among the Poor of this Kingdom ; on account of which, they are too often betrayed into Thieving, and many other enormous Vices ; or, at the best, turn Vagabonds and Beggars, and become a Nufance, and Burthen, to their Country : The Society hope to remedy this, by inuring the Children early, in their Working-Schools, to those Labours that may promote the Publick Good ; especially, that may improve *Agriculture* and the *Linen Manufacture*. And, as some Donations of Land have been already made, the Society propose to turn every School so endowed into a little Farm, to be cultivated variously, according to the Nature of the Soil, by the Labour of the Children, under proper Directors ; by which Means, it is not doubted, but they will (in some measure) raise their own Subsistence, and Clothing, out of their own Farm ; and will, moreover, acquire some previous Knowledge, and Hability, for their future Occupations : For such Schools will thus become Factories, as well as Farms, where the Fabrick of Linen Cloth is to be carried on, from the Seed to the Loom †.

In pursuance of this Scheme, the Society hope to introduce and spread, gradually, thro' the Kingdom, the *English* Spirit of Improvement ; together with a Habit of Neatness, and Cleanliness, among the lower Sort of People.

Lastly, The Society are sure of obtaining one good End, tho' all others should fail, and that is, dispensing properly their own and other Peoples Charity, in Feeding, Clothing and Comforting many poor distressed Children, Orphans and Foundlings, exposed to Want and Misery, and in qualifying them for getting their Bread in an honest Way during their Lives.

These are some of the great Ends the Society have in View : And tho' in a Work of this Nature, the good Effects cannot become evident, till the Children have received their Education, and are put into the World, yet they are perswaded, that when their worthy Benefactors

\* It appears from a very just Calculation, that 7260 Persons will be the Produce of twenty original Couples in the Space of one Century ; supposing them to marry at 21 Years of Age, and that each Couple shall procreate only 3 Children, who shall live to marry and procreate in the same manner.

† By a late Application, from *The Incorporated Society*, to the Hon. Board of Linen Manufacture, nine Hogsheads of Flax Seed have been ordered for the Use of the Charter-Schools, with a good Number of Wheels and Reels, fit for the Employment of the Children.

## The Introduction.

factors shall read in the Sequel of this Abstract, the hopeful and promising Beginnings that have been made in so short a Space of Time, they will not be weary in well-doing, but will with Patience and Perseverance, expect to see the Fruits of their Charity: for the Society consider themselves at present as only sowing the Seed, which (by God's Blessing) shall in due Time yield a plentiful Harvest; and if they are enabled to extend their Schools, they do not doubt of shewing in a few Years, a new Race of People disposed to support the *Protestant* Interest and Government, and qualified to improve the Lands and Manufacturies of this Kingdom.

In this View, the Society consider the Education of Girls in the *Protestant* Religion, as not less deserving their Attention than that of the Boys, who by this Means will, at the Age of Maturity, be provided with *Protestant* Wives: The Necessity of this is too evident from Experience in some Parts of the Kingdom, where we see many *Popish* Families all with *English* Names, descended from the Soldiers that came over to suppress the Rebellion of Forty-one. These obtaining Settlements in Places where *Protestant* Women were not to be found, took *Popish* Wives; in Consequence whereof, their Offspring are zealous *Papists* at this Day.

The Steps which the Society have taken, and the Progress they have made within the Compass of three Years, from the opening of their Charter, on the 6th of *February*, 1733. will appear from the following Abstract of their Proceedings, which is here published for the Satisfaction of their worthy Benefactors.

N

It appears from a very full Collection, that 750 Persons will be the Produce of twenty original Copies in the Space of one Century: supposing them to marry at 21 Years of Age, and that each Couple shall produce only Children, who shall live to marry and produce in the same manner.

A line Application from the Trustees and Settlers to the Hon. Board of Lincoln, Manchester, nine Hospitals of Tax Seed have been ordered for the Use of the Charter-Schools, with a good Number of Wheels and Reels, fit for the Employment of the Children.

of Ground that belongs to the School, the Girls in Spinning and other Parts of Housewifery, under the Tuition of a Mistress. They have a Web of Cloth of their own Manufacture, the Weaving only excepted. Two Hours in the Day are spent in Reading; and they have made such Proficiency, that the English Tongue is become familiar to them, who before spoke Irish only; and they have made a Progress, according to their Age, in the Knowledge of our holy Religion.

II. The School at *Minola* in the County of *Mayo*. Here 12 Boys and 10 Girls are accommodated with all Necessaries, in an House new built for their Use by GEORGE and JOHN BROWN, Esqrs. who have endowed the School with ten Acres of Land for ever. The Local Committee have given a very pleasing Account of the Progress of this School; the Children speak English, read the Bible, and repeat the Catechism, and seem to be happy in the Change of their Condition, insomuch that two of the Girls who were enticed away by their Popish Relations, took the first Opportunity of returning voluntarily to their School. They are all employed in proper Works, according to their Capacities; the Girls in Spinning, Knitting, and preparing Materials for their own and the Boys clothing; the Boys in Gardening, Weeding, planting Potatoes, cutting Turf, and other useful Branches of Labour; by which Means the Expence of their Maintenance is in some measure reduced already: And as many Protestant Families from the North are lately settled here, to carry on the Linen Manufactory, the Society hope, that by this Means the Children will make great Progress in that Business, and also be the better secured from relapsing into Popery. His Grace the Lord Archbishop of Tuam was pleased, in his Progress through his Diocese, personally to inspect this School, and has intimated in a Letter, the Satisfaction it gave him to find it in so good Order.

Com'  
Limerick.

III. In the School at *Sbannon-Grove* in the County of *Limerick*, are educated 20 Chi'dren, ten of each Sex. This School is so well managed by the Local Committee, under the Protection and Influence of WILLIAM BURY, Esq; upon whose Land, and by whose Encouragement it was erected; that no Article of Expence has been charged to the Society for their Food, for the whole Year 1736. nor for Seventy-one Yards of Linen Cloth, which have been wrought up by them for their own Use, the Weaving only excepted. The Society have here twenty Acres of Land, one of which is granted to them in Perpetuity, together with a new slated House that cost upwards

upwards of eighty Pounds, by the said Mr. BURY; the other nineteen Acres they hold from him at a very moderate Rent; on these are sown Potatoes, Bear, Oats, and Beans, which largely supply the Necessities of the Children.

By this Specimen the Society are instructed how easy the Expence of Schools might in due Time be made, by pursuing the same prudent Methods in all Places where the like Circumstances render it practicable.

IV. The School of *Ballynabincb* in the County of *Down*, consists of 20 Children, Boys and Girls, who are all dieted, clothed and lodged at the Society's Expence. The Boys are here employed in digging, fencing and ditching; and a convenient Piece of Ground is laid out for raising Potatoes, Beans, Pease, &c. by their Labour: The Girls are taught to spin and knit, and are at this Time wearing Linen spun with their own Hands; and the Local Committee assure us, that the Children are daily proceeding in their Reading and manual Improvements. Com' Down.

Two Acres of Land are conveyed in Perpetuity for the Use of the School, by the Right Reverend the Lord Bishop of DROMORE; Eight more are farmed from a Tenant of Sir JOHN RAWDON; and when this worthy young Gentleman comes to Age, the Society have good Ground to hope, that this Expence, so necessary at present, will be made easier.

V. The School at *Castle-Caulfield* in the County of *Tyrone*, has at present 10 Boys and 10 Girls, who attend as Day-scholars; the House is built and fitted up, and a Master and Mistress are settled there; Clothing, Bedding, Books, Working-tools and other Necessaries, are preparing to be sent thither by the Society; and as the Rev<sup>d</sup>. Mr. VINCENT has been the great Encourager of this Foundation, by giving one Acre of his Glebe for ever, contiguous to which he has added nineteen Acres at an easy Rent, besides a Subscription of 10 l. per Annum, during Incumbency, and is zealous to bring it to Perfection, the Society are ready on their Parts to give him all the Assistance their little Fund will bear. This Proposal is the more acceptable to the Society, inasmuch as it affords them the earliest Opportunity of expressing their Acknowledgments for the several Benefactions they have received, from the Worshipful Companies which constitute the *Irish Society in London*, by enabling them to erect a Charter-School on their Lands.

Manufactory. And as it is a *Popish* Country, a School in this Place will be of great Service to the *Protestant* Religion.

VI. At *Moat*, in the Parish of *Maward*, within a few Miles of *Loughrea*, in the County of *Galway*, FREDERICK TRENCH, Esq; proposes to give 20 Acres of Land, for 21 Years, Rent-free, except Quit-Rent, which is 3*d.* per Acre, to commence from the time of building or erecting a School thereon; and will make a Lease for three Lives, renewable for ever, of the said 20 Acres, to commence after the Determination of the said 21 Years, at half a Crown an Acre, being half Value, provided the said School shall be so long continued on the said Lands. Com<sup>r</sup> Galway.

VII. In the Parish of *Gesbil*, in the *King's County*, JOHN DIGBY, Esq; proposes to make a Lease for three Lives, of 24 Acres of Land, at 3*l.* per Ann. which was set the last Year for 8*l.* for the encouraging a Charter-School to be erected there. And the Right Honourable the Lord DIGBY has given 50*l.* in Money, for the Uses of the Society. The Rev. Mr. GRAVES, Minister of the Parish aforesaid, has also given one Acre for ever, out of his Glebe, for the Site of the School. King's County.

VIII. At *Newtown-Trellick*, in the County of *Tyrone*, near the Verge of *Fermanagh*, HENRY MERVYN, Esq; proposes to give 20 Acres for ever, for the Use of a Charter-School, where he has settled Weavers for carrying on the Linen Manufactory. Com<sup>r</sup> Tyrone.

Thus far have the Society proceeded under the *Royal Charter*, in which they have been greatly supported by the Contributions of many pious and charitable Persons in *England*, and it is hoped their disinterested Zeal will provoke the same Spirit in the Rich and Wealthy of our own Country; who, besides the common Rewards of Charity in the Life to come, will find their present Account in the Advancement of Trade and Manufactory among us.

But:

But still this good Work is only begun, and limited to a few Spots: And the Society cannot expect to see the happy Effects of it diffused through the Kingdom, while their Fund is so narrow, and therefore they offer it to the Consideration of Gentlemen of Estates and Influence, if a Scheme for erecting a *Charter-School* for every County, may not be worthy their Deliberation at their Publick Meetings, and a Voluntary Subscription set on foot for the Support of the same: This would be a good Step towards rendring the Design general; and the Money thus arising out of each County, would certainly be expended within it, and circulate among the Tenants of the Donors: And there is great Reason to hope, that, by the Blessing of God upon the Labours of the Society, the good Fruits of it would, in some degree, be reaped by the worthy Contributors; and in a great degree by their Posterity.

The Society cannot conclude without observing, that all the Methods that have been pursued, from the Revolution down to this Day, for making *Ireland* a *Protestant* Nation, having failed of Success, it is high time to think of some other Expedient: And as that now before them, is of all others the most natural and rational, the Society cannot despair of seeing in due time, *some more Publick Encouragement* given for accomplishing a Work so conducive to the Security of the *Protestant* Interest, and the Prosperity of this Kingdom.

One Objection has been made to the *Charter-Schools*, which the Society think themselves concerned to answer, because it strikes at the Foundation of the Design: This is taken from the Apprehensions of some Gentlemen, that the Children may relapse to *Papery* as soon as they come to be free to dispose of themselves.

That such Relapses have, and may again happen, by reason of the Mutability of Mens Minds, and the Force of Temptations, which no human Prudence can prevent, is not to be denied. But the Society have Reason to hope, that this will not be so frequent, under the great Precautions they take to prevent it, by transplanting the Children either to other Schools, or to Services, remote from the Influences of their *Papish* Relations, at that Age when they are most in danger: For as no particular Religion runs in the Blood, and the Minds of all Children are Blanks, till something good or bad, is written upon them by Institution and Example; they are at first equally indifferent to all Religions; and the Society will have the Advantage of making the first Impressions upon their Minds, and of guarding them afterwards from being corrupted at the most dangerous Period of their Lives.

—If they who Object to this Scheme, will suggest a better, the Society will thankfully receive it: But to Object, without offering any Amendment, as it is not a kind part, so it tends to destroy all Endeavours for converting the poor *Popish*: For if the Prejudices of the *Adult* are not to be overcome by Instruction; and if the Coercion of Laws, in Matters of meer Conscience, be unchristian, as well as ineffectual, What remains, but to begin with laying the Foundation in Children? And if this likewise is to be exploded, as impracticable to answer the End, it follows, that nothing at all is to be done; but that we must sit still, and see Superstition and Idolatry, Ignorance and Idleness, go on for ever without a Remedy.

But the Society have better Hopes, which they build upon certain Experiences; For they are well informed, upon strict Enquiry, that there are at this time Ninety *Protestant* Heads of Families, within the City of *Dublin*, who were *Popish* Boys, educated in eight Charity-Schools; and that one only has relapsed: And that there are likewise twenty *Protestant* Heads of Families in *Dublin*, and other Parts of the Kingdom, who were *Popish* Boys educated in the School founded by Mr. JAMES KNIGHT, besides many others gone to Sea, and put out to Services; and that not one of these, upon the best Information, hath relapsed to *Popery*, notwithstanding their conversing and lodging with their *Popish* Relations.

These are some Fruits of those private Schools, that are truly valuable: And there is room to expect much greater from the Charter-Schools, which are attended with some particular Advantages, from the Nature of their Constitution, that are wanting in the former.

The Society do therefore hope, that if there be no more than a Probability of their doing some Good, which cannot be denied till the Experiment is made, Objections of this Nature will not be unkindly suggested; and that they who are not sanguine enough to contribute to the Design themselves, will, at least, not discourage the Piety and Charity of others, who may think it more hopeful: For the Society will go on to give their Time and Labour, in expectation that God will, in due time, give his Blessing.

Mr. JAMES PIERREY, one of the Trustees of *Shandon* Hospital, *Cork*, in a Letter dated 21st *Octob.* 1735. signifies, That near an Hundred poor Children of *Popish* Parents have been bound out Apprentices, and not above five or six returned to Males; and some of them pretty well married, and Housekeepers in the City of *Cork*. We have also many such pleasing Accounts from several other Parochial Charity-Schools in this Kingdom.

## The Charter-Schools.

*I will arise and go to my Father, and will say unto him, Father, I have sinned against Heaven, and before thee, and am no more worthy to be called thy Son.* Luke xv. 18, 19.

### Confession.

**M**OST gracious God, who desirest not the Death of a Sinner, but rather that he should turn from his Wickedness and live; We acknowledge and bewail our manifold Sins and Wickedness, which we have from time to time most grievously committed, by Thought, Word and Deed, against thy Divine Majesty. Have Mercy upon us, most merciful Father, for thy Son Jesus Christ's sake; forgive us all that is past; and grant that we may ever hereafter serve and please Thee in Newness of Life, to the Honour and Glory of thy Name, through Jesus Christ our Lord. *Amen.*

### A Prayer for Grace.

**O** Lord our heavenly Father, by whose good Providence we have been preserved, and refreshed with Sleep in the Night, guard us, we beseech Thee, from all Evils both of Body and Soul this Day: Keep us more especially from profane Cursing and Swearing, Lying and Stealing, Malice, Revenge, and unruly Passion; from Sloth and Idleness, and all other Vices, to which our past Education, or bad Examples, may incline us: Teach us to be content with our Lot, submissive to our Superiors, and modest and humble towards all, as becomes our mean Condition of Life: And let thy Grace be sufficient for us at all times, through Jesus Christ our Lord. *Amen.*

### The General Thanksgiving.

**A**lmighty God, Father of all Mercies, we thine unworthy Servants do give Thee most humble and hearty Thanks for all thy Goodness and Loving-kindness to us, and to all Men. We bless Thee for our Creation, Preservation, and all the Blessings of this Life; but above all, for thine inestimable Love in the Redemption of the World by our Lord Jesus Christ, for the Means of Grace and for the Hope of Glory; particularly we bless Thee for putting it into the Hearts of our Benefactors, to set up this, and other Nurseries of Religion and Industry; by Means of which many of us are rescued from the Ignorance, Idolatry, and Superstition of *Popery*; and all of us are taught to read the Holy Scriptures, *which are able to make us wise to Salvation*: We praise Thee also, that we are called from Sloth and Idleness, to a Life of Labour and Industry, that so we may become a Blessing instead of a Burthen to our Country. Give us, we beseech Thee, that due Sense of these and all thy other Blessings, that our Hearts may be unfeignedly thankful, and that we may shew forth thy Praise, not only with our Lips, but in our Lives, by giving up our selves to thy Service, and by walking before Thee in Holiness and Righteousness all our Days, through Jesus Christ our Lord. *Amen.*

## *Account of Mr. Conolly's School.*

THE Society cannot pass over in Silence a very noble Foundation for a School, given by the Munificence of His Excellency the late WILLIAM CONOLLY, Esq; One of the Lords Justices of Ireland, and Speaker of the House of Commons; it being directed nearly to the same Ends and Purposes with the *Charter-Schools*, under their Care.

This School is, by His Excellency's Last Will and Testament, to be Erected upon some Part of his Estate in the Parish of *Cellbridge*, where his Mansion-House stands: For the Support of which, he has given 250 *l. per Ann.* being a Rent-Charge upon the Mannor and Lordship of *Rathfarnam* for ever: His Excellency has also given 500 *l.* for a School-House, and other necessary Buildings, for the Reception of forty Children, who are to be lodged, clothed, and dieted there.

His Widow and Relict, Mrs. CONOLLY, has, out of her Bounty and Charity, added 50 *l. per Ann.* during her Life.

And the Right Honourable WILLIAM CONOLLY, Esq; Nephew and Heir to his Excellency, has given 50 Acres of Land for ever, worth, at this time, 20 *s. per Acre*, tho' the Land be out of Heart, at the Rent of one Pepper-Corn; which are, at present, well-inclosed, divided and quicked; and are to be variously cultivated, in the Nature of a Farm, for the Use, and by the Assistance, of the Children.

He has likewise begun a Building of 120 Feet square, terminating a Visto to the Mansion-House: This Building, which, by Computation, will cost near 1500 *l.* is to stand in a Court of 400 Feet square, surrounded by a Wall, and to be adorned with a Tower and a Clock; and the Work is in such forwardness, that it will, probably, be roofed before next Winter.

It is hoped, this great Endowment will, in time, support a hundred Children of both Sexes; who are to be taught to Read, and are to be

instructed in the Christian and *Protestant* Religion for some part of the Day; and for the Remainder, are to be employed in the Cultivation of their Farm, and in carrying on the Linen and Hempen Manufacture, through all the Branches, from the Seed to the Loom, and the Bleaching.

---

*City of Dublin's Benefaction of 50 l. per Annum.*

SINCE the foregoing Account was sent to the Press, the Right Honourable the Lord Mayor, Sheriffs, Commons, and Citizens of *Dublin*, were pleased, at their General Quarterly Assembly, held, at the *Tbolfel*, the 22<sup>d</sup> of *April* last, unanimously to give 50 l. per Ann. to the Uses of the *Royal Charter*; for which generous Benefaction, the *Society* do take this Opportunity to make their Publick Acknowledgments: And as a further Testimony of the same, the *Society* have resolved to erect a *Charter-Working-School*, in some fit Place, in the County of *Dublin*, and Neighbourhood of this City, as soon as Land convenient is set apart for that Purpose.

---

*Mr. Oliver's Proposal.*

ROBERT OLIVER, Esq; has, in his Letter of the 26<sup>th</sup> of *April*, 1737. sent a Proposal for Erecting a *Charter-School* on his Estate at *Kilfnane*, near his Mansion-House in the County of *Limerick*; where two School-Houses for Boys and Girls are already erected, and may, with small Expence, be converted into Working-Schools.

He offers the Encouragement of 100 l. sterl. and a convenient Quantity of Land; which is, there, very good for the Culture of Flax and Hemp: And he has already settled there a Colony of Linen Manufacturers from the *North*; there is great Conveniency of Water and Fuel, and a Church is in the Village; and it is, in all Respects, a desirable Place for establishing a *Charter-School*, and a Manufactory for Linen; which will, every where, naturally promote each other.
